QUADRA COMMERCE

Problem Statement

Traditional shop owners and small businesses face major challenges in moving online:
- Difficulty setting up and managing an online store
- Separate systems for billing, stock, and order tracking
- Lack of technical expertise to manage web platforms
- High cost of custom e-commerce development
- No unified system for online and offline sales
- Limited visibility in the global marketplace

Result:
- Lost sales opportunities, operational complexity, and slow business growth.
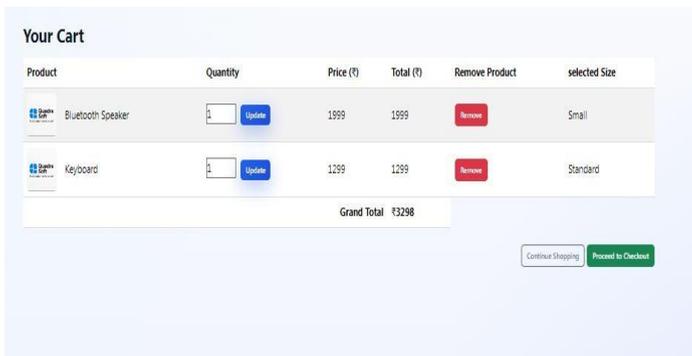

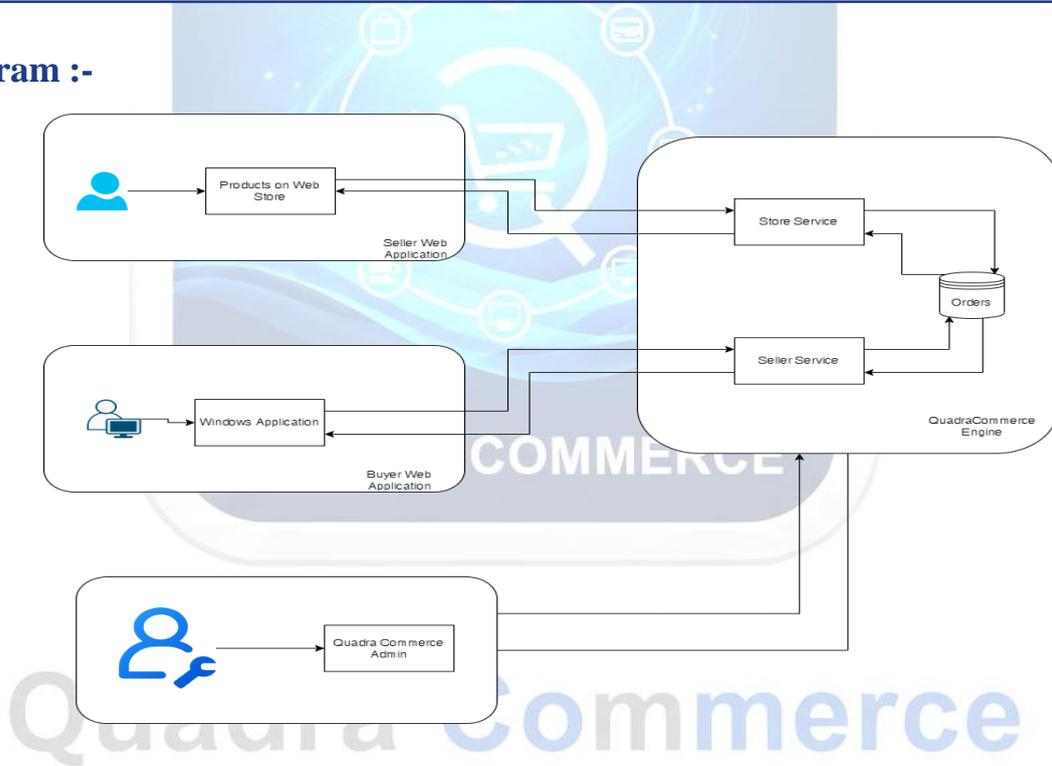

Solution

QuadraCommerce is a ready-to-use, high-performance e-commerce platform that allows businesses to sell products online while managing offline operations from a single system.

It provides:
- Buyer web application
- Seller Windows-based admin application
- Backend management and support system
- Shop owners focus on selling — QuadraSoft handles the technology.
